

# MARINE LICENCE APPLICATIONS

## 3 FEB 2018

This report covers applications submitted since 1 December 2017 for work in the Solent, not included in previous reports. It excludes applications for burial of human remains at sea.

### 1 Applications now open for consultation:

Case Reference No	Project Type	Project Title	Locations	Applicant Name	Submitted	Latest Decision	Consultation Closing
MLA/2018/00031	Application - Construction of new works, Other works	Deacons Marina	Hamble River	Dean & Reddyhoff Limited	17-Jan-18		16-Mar-18
Submitted							

### 2 Details of Applications open for consultation

Deacons Boatyard is a medium sized boatyard and marina situated on the western edge of the River Hamble just downstream of the A27 Bridge. The boatyard has been operating continuously since 1922.

The boatyard was purchased in 2017 by Dean & Reddyhoff Ltd who operate a number of marinas around the south coast.

Prior to the change in ownership the marina was dredged and re-built in 2012 under the following consents:

Marine Management Organisation –

Construction licence 35025/11/0 issued 29/03/2011, this was subject to 5 variations extending the licence until 31/03/18.

Disposal licence 35026/11/0 issued 29/03/2011, the dredging works were completed within the duration of this licence which has now expired.

Harbour Authority – Issued 30/09/2011 and remains extant.

The above consents relate to an approved marina layout. The marina layout was not fully completed in 2012 and the new owners now wish to complete the original design with some modifications to the access.

This image below shows the current layout and the areas of interest.

The green box indicates the area where the original layout is not complete.

The lower red box indicates the existing access brow and walkway which is to be moved to the upper red box location. This enable a more efficient operation of the boatyard facilities.

The blue line (near the bridge) is the proposed location of a landing pontoon to improve public access to the river. This is something that is often requested by locals and is seen by Dean & Reddyhoff as a contribution to the local community.

Drawing 10621/2 shows the current layout and the proposed works.

In terms of the original layout this is covered by the current MMO licence, so effectively a renewal. The existing (extant) harbour consent has been re-confirmed by the Harbour Master.

The marina accesses are a minor alteration and the installation of a landing pontoon a small addition.

### 3 Other Applications already decided by MMO

Case Information	Project Type	Project Title	Locations	Applicant	Submitted	Latest Decision
MLA/2018/00053	Application - Maintenance of existing structures or assets	Installation of wooden stakes as part of an erosion plan to protect the main slipway at Emsworth	Emsworth	Emsworth Sailing Club	27-Jan-18	27-Jan-18
