

MARINE LICENCE APPLICATIONS

Report No 20. 30 October 2018

This report covers applications submitted since 1 Aug 2018 for work in the Solent, not included in previous reports
It excludes applications for the burial of human remains at sea.

1 Applications open for consultation

Case Information	Project Type	Project Title	Locations	Applicant Name	Submitted	Latest Decision	Consultation closing
MLA/2018/003 78	Application - Disposal of dredged material, Navigational dredging	Hamble Yacht Services Maintenance Dredge		Hamble Yacht Services Limited	15-Aug-18		14-Nov-18
Submitted							

2 Details of Applications open for consultation

Hamble Yacht Services are located on the River Hamble just upstream of Port Hamble Marina. The site offers a large range of facilities for vessel storage and repairs. This includes a small marina style berthing area.

The site was last dredged in 2013 under licence L/2012/00170/1. It is now necessary to undertake maintenance dredging to enable continued safe navigational berthing for the vessels. A 10 year maintenance licence is proposed with sample analysis for the application and another set in year 5 of the licence.

The proposed dredge is shown on drawing 10637/1 and consists of three areas. The inner area is dredged to 1.5m BCD with the outer areas dredged to 2.5m BCD and 3.3m BCD respectively. In all areas the depth of removal of approximately 1m.

Please note that the maximum dredge depth has been used later for simplicity.

Programme of works

The actual timing depends upon receipt of a Marine Licence and availability of plant.

It is anticipated that dredging will occur twice within the 10 years with 6000m³ removed during each campaign.

In accordance with accepted practice on the river the dredging will be undertaken during October to March.

3 Applications already completed by MMO

Case Information	Project Type	Project Title	Locations	Applicant Name	Submitted	Latest Decision
